

Boastful Thugs Caution Driver

Arrival of three tough characters in Toledo Saturday, which may have some bearing on the \$19,000 Page Dairy Co. stickup today, was reported by a driver for the U. S. Trucking Co. who delivered supplies to the Cramer Oil Co.

The driver said that on Saturday morning he observed a sedan pass his truck and noted that two men in the rear seat had a machine gun across their laps. The driver of the gunmen's car, noticing that those inside had been observed, slowed down and stopped by the truck.

"Don't say anything until after 11 o'clock. Then you can tell the police that Dillinger is in town," he said.
